THE SOUTHERN VOTE .- It seems settled that the state of Marvland has thrown away her vote on silmore. She has separated from her sister Southon States in the Union, and given her electoral suffrage in such a manner as to directly aid the party at is waging a violent war upon her constitutional Nothing has occasioned more surprise to the Vational Democrats of the North than the attitude the Southern Fillmore men in the late crisis the issue involved, it was reasonable to suppose, would bring to their aid all Southern men, without distinction of party; yet, nearly one-half of them have practically been allied with the Abolition sec-

tionalists of the North. From the outset it was evident that Mr. Fillmore had no chance, that every vote given him would brighten the prospects of Fremont, and yet Southern editors and Southern politicians have been mad enough to persevere in his hopel as support. This either argues a deplorable ignorance on their part of the state of politics, or else they are Black Republicans at heart. The probability is that both of these suppositions are, in a measure, correct. The masses were honest, but were misled by the Rayners, Bottses and Marshalls of the South, who are, in fact, Black Republicans; but, to whatever cause their actions may be owing, the Democracy of the North have much reason to complain of the ingratitude of a large portion of the people for whose constitutional of the Indians. rights they have made such a gallant battle. Office of the Literary Board, RALEIGH, Nov. 3d, 1856. The President and Directors of the Literary Fund having made distribution of the net income of said Fund for the year 1856, among the several Counties of the State for Common Schools, have directed the following tabular statement to be published, showing the Spring and Fall Distribution to each County, and the sum total distributed during the year.

The amount of the Fall Distribution will be paid to the persons entitled to the same, on application to the Treasury The Counties of Jackson, Madison, Yakin, Polk, Harnet and Wilson will receive their portion out of the amount distributed from the Counties out of which they were respectively formed.

It will be observed that certain amounts are deducted from the portion of School Fund due to Counties having pupils at

the N. C. Institution for the Deaf, Damb and Blind, those Counties not having paid the tax for their pupils to the Public

Treasurer of the State as now required by law. The Board respectfully call the attention of the Justices of the several Counties, from the shares of which deductions are made for pupils at the Institution for the Deaf, Dumb and Blind, to the law requiring them to levy a tax for the support of their said pupils, and that they are liable to indictment for not doing so. (See Revised Code, chapter 6, section 12.)

Arrival of the Steamer Baltle .- Four Days Later from Europe. New York, Nov. 10 .- The American mail steamer Baltic arrived here this morning from Liverpool

with dates to the 29th ult. The steamer Africa arrived at Liverpool on the morning of the 27th.

GENERAL NEWS .-- The feature of news which has Mitchell; with corn and oats. excited most attention is an official paragraph in the Schr. R. W. Brown, Derrickson, from New York, to A. Moniteur, complaining of the English press publishing calumnies against the French government, and holding out the menace that a continuance of such conduct will break up the Anglo-French alliance - Rankin & Martin; with naval stores. This paragraph caused some excitement, both in England and France, having affected the Paris Bourse. It is reported that the English government will ask Schr. Fox, Wixon, from Washington, N. C., to DeRosset an explanation of the threat to dissolve the alliance. Respecting the Neapolitan difficulty, the only ad- with mdze. ditional progress made is that the French embassy, and, probably, also the British, left Naples on the

The English fleet had left Malta, but the French fleet was still at Toulon. The German papers say that a squadron will go to Naples in three weeks if the matter is not settled.

There is nothing new respecting the complicated relations with the Danubian principalities. It is depeace, was obliged to return, as the entire country Porte has summoned the Austrians to quit the Prinnorth and east of Day's river was in the possession cipalities. In this connection there are two reports to E J Lutterloh. -firstly: That the Congress of Paris is not likely to meet soon, owing to the non-assent of England; and secondly, that Russia, inspired by a suspicion of a secret understanding between England and Austria, respecting the principalities, demands that the Russian squadron shall enter the Black Sea on the same terms as the English fleet now in those waters.

> PRESIDENT latest accounts. There is no news from Spain except of a contem-

lated increase of the army. NAPLES AND THE ALLIES .- A well informed corespondent of the Manchester Guardian says :rance and England could not agree upon a line of oction in the affairs of Naples, which, in various coningencies that might arise, would lead, with toleraole certainty, to a satisfactory result. No hostile lemonstration, therefore, is contemplated, and the ombined fleets are sent merely for the protection of he respective subjects.

The same correspondent says that the prevailing pinion in England regarding the beiligerent article n the Moniteur is that it had reference to financial articles in the London press upon the monetary crisis and the Bank of France. The article in question mounts to nothing.

The report that Turkey had demanded the withrawal of the English vessels from the Black Sea is

THE BALM OF A THOUSAND FLOWERS!-Is a delightful compound, highly and delicately scented by its own ingredients, to be used in the toilet—imparting beauty, comfort and health to the skin. It will effectually remove tan, sunburn, &c., and it imparts a flexible, soft surface to the skin, preventing its shrinking and becoming spotted. For cleaning the teeth it has been considered far superior and far more medicinal than any compound yet known. It quickly renders them white as alabaster, prevents their decay and removes the tartar; prevents ulceration and strengthens

For shaving, this Balm gives a rich, penetrating lather and has no equal in rendering the beard soft, emolient and tender, so that, in removing it, it gives way at the slighest resistance to the razor, without producing the least sensation, leaving a fresh, white and delicate countenance.

This highly perfumed Balm gives life to the hair; an un surpassed gloss is imparted to it and it becomes beautifully curled and firm. It promotes its increase and nourishes its roots. It ensures with certainty a new growth of beautiful hair to those who, even for years, by sickness or otherwise, may have been deprived of it. It removes dand-uff, strengthens the cuticle and cleanses it, rendering the head lively and

retailers, and nearly or quite all the old stock has been worked off;—supply equal to the demand. We quote at 41 cents per lb., in lots to auit. For the rough article there is no market, and as a price has not yet been fixed by planters we are unable to quote it.——WHEAT—Nothing has been done during the past week that we are aware of ;—a few parcels on market, but held too high. We quote nominally at \$1.40 for red and \$1.50 for white

for red and \$1 50 for white. HAY-The market is well stocked with both Northern and

Eastern make, and is decidedly dull at quotations. No arrivals of either, and figures in table are for last sales. A lot of 93 bales received from Nova Scotia a few days since and changed hands at 70 cents per 100 lbs., 90 days.

LUMBER-River-No arrivals for a few weeks past, and we hear of very little enquiry. Quotations nominal. See

LIME-No change. Full stock in dealers hands, and no demand. See table for both cargo and retail price.

Molasses.—Owing to the limited receipts, the stock Cuba has become materially reduced, and there is very little

now in first hands. We quote from wharf at 45 cents, and store at 46 cents per gallon, by the hhd.

Potatoes—The market is poorly supplied with Irish, and some demand exists. A lot of 250 barrels received a few days since from Nova Scotia, and selling in quantities to suit at \$2 50 per bbl. Sweet have arrived slowly, and are in better demand at advanced rates. We quote at 60 a 70 eents per bushel, as in quantity and quality.

Provisions—In N. C. cured Bacon we have no material alteration to report. The stock in first hands has somewhat

accumulated, with moderate receipts, and is fully fair for present demand, which is limited to parcels for retail purposes. We note sales for the week from store of several lots at 13 cents for hog round, and 16 cents for hams—this latter figure for an extra article, as ordinary would not bring more than 15 cents per lb. See table for prices of sides and shoulders. Western cured is in rather heavy stock, and 154 with a limited demand prices have further receded. We quote sales from store throughout the weak at 84 a 95 cents for shoulders, and 10 a 101 cents per lb. for sides, according to quantity and quality.—Larn—The market is almost if not entirely bare of both N. C. and Western make, and with an active demand from grocers prices continue to rule high. We quote the former at 15 a 16 cents in bbls. and kegs, and the latter at 15 cents per lb. in bbls. Pork - For Northern Mess the market has been quite dall during the past week at a decline on former quotations. We quote as extremes \$21 a \$22 50 per bbl., as in quantity and quality, at which we notice sales from store ; -- the demand is limited. and there is a fair stock in store. Fresh is brought to market sparingly, and sells readily from carts at 10 a 104 cents

per lb., as in quality.
PEA NUTS-Only a few parcels have been brought in since our last, and but one or two buyers as yet in market. We quote sales at 80 cents to \$1 05 per buskel, 'according to

SALT-The market is pretty well supplied with Liverpoo l sack and as there is little or no demand existing, it rules exceedingly dull. A lot of 500 sacks received coastwise a day or two since, but not yet sold; held at \$1 05. We quote from store at \$1 10 a \$1 15, in lots to suit. Alum is also in good supply, and we note very little demand;—sells from store at 40 a 50 cents per bushel. A cargo of 2,000 bushels ar-rived from Turk's Island on Tuesday, and selling in lots at 35 cents per bushel.

SHINGLES-Are very dull of sale, and in Contract nothing has been done. Sale of only 100,000 Common at \$2.25 per M. TIMBER--Continues to come in slowly, and prices remain about the same. There is a better demand for milling purposes, and market firmer. Sales of several rafts at prices ranging within quoted rates. See table.

FREIGHTS.--In consequence of the small number of vessels arriving, rates coastwise have further advanced the past week, and the market rules firm. Vessels are wanted for both coastwise and foreign ports, as we note plenty of freights offering, and about all in port have been taken up at rates quoted in our table.
